

Cipia's Quality Policy

Cipia is committed to providing its customers with high quality products and services to ensure their satisfaction. Our main business is the Automotive market and we are committed to meeting the quality level and expectations of the industry.

Cipia achieves high standard products by designing them with quality in mind, and by following quality assurance management methodologies throughout the product lifecycle, from concept and design, through implementation and production, to installation and service.

Cipia's management and employees are fully engaged in a culture of continuous improvement, and constructive partnerships with suppliers, customers, and stakeholders.

Cipia is committed to meeting our customers' highest level of expectations, complying with all applicable environmental, health and safety requirements, and acting in accordance with the relevant laws and regulations.
